Call for Papers

IEEE B-HTC 2023 is a premier annual cross-disciplinary conference that brings together technologists, engineers, and scientists as well as representatives from NGOs, government, academia, and the industry. The conference aims at promoting research and development on "Sustainable Development Goal 3: Good health and well-being" to ensure a healthy life and promote well-being for all ages.

B-HTC 2023 will be held at NIE Institute of Technology (NIEIT), Mysuru, Karnataka, India on 24 - 25 March 2023. We are delighted to announce that the IEEE Bangalore Section and the IEEE Mysuru Subsection are co-hosting this prestigious conference.

B-HTC 2023 will have plenary talks, keynote addresses by eminent experts, research paper presentations, events for Young Professionals, sessions on entrepreneurship and innovation, Industry exhibits, as well as industry and health facility visits.

TOPICS OF INTEREST

In recent times, significant strides are made in increasing life expectancy and reducing some of the common killers associated with child and maternal mortality. But more efforts are needed to fully eradicate a wide range of diseases and address many different persistent and emerging health issues.

Paper submissions are encouraged with respect to the usage of technology (sensors, algorithms, devices, and services) that helps the following domains, but are not limited to:

- Control and monitoring of communicable and noncommunicable diseases
- Early warning for risk reduction and management of national and global health risks.
- Pollution monitoring and control as well as its related health hazards.
- Road accident monitoring and reduction.
- Promoting health awareness.
- Telehealth monitoring.
- Provision of quality essential healthcare services at an affordable price.
- Safety of health workers.
- Quality check and tracking of food products.
- Detection and control of Malnutrition.
- Mental health care.
- Neonatal and Geriatric health care.

Presented papers are planned to be included in the Proceedings of IEEE B-HTC 2023 and in IEEE Xplore provided all the requirements are met.
